## PA-DSS Compliance

June 2, 2014

RE: NX1200 and NX2200 POS Devices

This letter hereby serves as confirmation that all NX1200 and NX2200 payment applications released after June 2, 2014 were developed according to PCI PA-DSS version 2.0 guidelines using ExaDigm's PA-DSS validated security libraries 'aka' GRAPE SPE (secure payment engine) Version 13.11.015.

ExaDigm's PA-DSS validated security libraries (GRAPE SPE) Version 13.11.015 were reviewed by 403 Labs and support all industry types such as Retail, Restaurant, QSR/QSP and MOTO.

We currently do not have any updates to GRAPE SPE Version 13.11.015. The Implementation Guide and all current documents can be found on [www.exadigm.com](http://www.exadigm.com).
